

RPM Receives Supplier Award from Honda of America Mfg., Inc.

ARCADIA - RPM Inc. recently received the prestigious Honda of America Mfg., Inc.'s 2008 Supplier of the Year Award. RPM received the distinction in the area of production cutting and tooling supply and service. As one of eight suppliers, RPM was honored during this year's presentation.

RPM provides Honda with maintenance, repair and operational perishable tooling, inserts, gages, punches, tools and dies.

RPM received the honor recently at Honda's annual MRO Supplier Conference in Marysville, OH. Honda invited 109 of the 2,100 MRO suppliers to the conference to thank them for their support over the past year and to share information on business conditions and challenges. The theme for the event was "Driven by the Future."

RPM Inc. also has received the 2006 Honda Tooling Supplier of the Year Award.

For more than 40 years, RPM has provided precision grinding, machining and finishing of close tolerance tooling operation that serves some of today's industry leaders from the automotive, fastener, metal container, medical and aerospace segments.
